Keep Cool!

When the mercury is sizzling in the thermometer and you feel like an over done doughnut, there is still a chance to keep cool if you take advantage of the many lines we have stocked specially for summer wear.

An Excellent Recipe:

Take one suit of honeycomb underwear, one pair of silk or lisle socks, one outing shirt either fine silk or linen, one soft silk collar, a Panama hat, and one pair of white canvas shoes, either thick rubber or leather soles; this outfit worn with one of our light-weight summer suits, will enable you to keep as cool as a walnut sundae.

Speaking About Sundaes:

Have you tried the effect of an ice cream cooler on the torrid zone temperatures of the past few days?

If Not, Try Our Latest!

TOWN COUNCIL

The exigencies of business and other contingencies which have arisen on different occasions to clash with the meetings of the Council, have prevented us from attending the deliberations of the City Fathers for many months, and we were struck with the metamorphosis which has taken place in that body of citizens since our last appearance in their midst.

Gone are martial spirit and belligerent atmosphere, departed the eager searchings for hidden objects asleep are various attempts to bring order out of suspected chaos, and vanished (temporarily perhaps) the persistent parent of illusory advantages; in other words the meeting of the Council nowadays is as calm as a noonday trip on a sea of Okotoks oil.

There was considerable heat in the Council chamber ("is true, but the Councillors, having partially dispersed, "the city" advisor had even discarded his suspenders in the effort to keep cool and calm; if not collected--the heat was confined to the atmosphere, and was not allowed to spread to the temper or speech of the assembled deliberators.

Major Bredin occupied the chair and presided with his customary urbanity and gentleness of comment, giving evidence that the honor of his position will not cause trouble with his lawmaker. Councillor Milroy and Playfair sat in the Council chamber, while Councillors Skerritt and Webster were as usual in their seats on the stroke of eight Councillors Golden and T. R. G. being totally absent.

The minutes of the last meeting having passed into the official records of the town, by motion of adoption, the following communications were presented.

The Secretary of the School Board intimated to the Council that a grant of \$1850.05 would be regarded by the trustees very favorably--the five cents, he presumed, would cover Secretary's emoluments for the year. Salaries have to be paid eventually--why not now?

Letter from the Canada Food Board advising Council that powers are vested in Municipal Authorities to enquire into costs of living affected by the recent regulations, and that where it was found that charges made at different establishments had not been reduced in relation to the regulations, steps should be taken to lodge complaint with the Department of Labor at Ottawa. The communication was ordered to be filed.

Letter from Capt. Cotterell of the C.P.R. advising town that his com-

Gleichen Takes Another Lesson

Gleichen came down on Wednesday of last week for further instruction in the art of ball playing and gave evidence that they are making considerable improvement as a result of the lessons received from the local mine. In fact so much have they improved that in at least two innings of the game they managed to make things interesting for the fans and players alike.

Continued on page 4.

pany had accepted the town's offer for supplying of water and asked for contract to be signed immediately.

Ferguson Supply Co. made an offer for the wire cable in the town's possession, of approximately 2000 feet, quoting a price of \$75.00 for the whole amount. Councillor Milroy stated that the amount offered was roughly about one-half of its present value and moved that the offer be rejected.

Engineer McEntee made application for an increase in salary--consequent upon the high cost of living at Pat's--and was granted \$25.00 per month increase.

The Incinerator attendant reported that during the past month he had destroyed among other things 2 dogs and one horse.

Councillor Webster moved "that application be made to the Provincial Secretary for the formation of a Hospital District at Bassano to include such unorganized municipal districts as may be within the radius of the district" and also that the Provincial Secretary take the matter up with the Brook's Council asking their consent to be included in the district.

Engineer Brennan made personal application for an increase in salary, and the Mayor's suggestion that the matter be left to the Waterworks Committee was not adopted, but on Councillor Milroy's motion an increase of \$25.00 per month was given.

Councillor Skerritt introduced the matter of service given by the Electric Light Co. during the past few weeks and from the remarks of the Councillors it was evident that they considered the service to be decidedly unsatisfactory.

The Secretary was instructed to take the matter up with the Company and impress upon them the importance of their obligation to the town.

After a short discussion relative to the matter of pipe supplied by the town to users of the summer water service.

The adjournment was moved by Councillor Webster.

SUMMER Necessities!

There are many ways of keeping the house and living conditions at normal even during the most severe hot spells, if you take advantage of the remedies offered by scientists:

Here are a Few!

Screen Doors, from	\$1.75 to \$3.75

TENDERS FOR COAL

Sealed Tenders addressed to the undersigned, and endorsed "Tenders for Coal for the Dominion Buildings," will be received at this office until 12 o'clock noon on Friday, June 29, 1917, for the supply of coal for the Dominion Buildings, situated behind the Dominion.

Combined specification and form of tender can be obtained at this office and from the caretakers of the different Dominion Buildings.

Persons tendering are required to make their name and address known on the printed forms supplied, and signed with their serial signatures.

Each tender must be accompanied by an accepted cheque on a cleared bank, payable to the order of the Minister of Public Works, equal to 10 per cent. of the amount of the tender.

By order,

H. G. DESROCHERS,
Secretary,

Department of Public Works,
Ottawa, June 6, 1918.

Crops Are Suffering
Irrigation System Working To
Full Capacity.

Wasteful conditions during the past week have been most discouraging in every part of the district, and the time is coming when the farmer is becoming more and more pessimistic as the drought continues.

The prospects for an average crop are rapidly diminishing though many districts report that, given rain within the next few days, a fair crop may be expected.

The irrigation system is the gloom which is enveloping the dairying and grain districts and comes from the irrigated areas.

With the exception of two minor accidents to the Canal Banks, the Irrigation project has answered every claim made upon it so far this year, and is now ready to meet the irrigation needs of large crops of wheat in districts where little or no artificial aid, scarcely a blade of grass would have grown this year.

The utmost value of the valuable resources will be given this year to the producer, to prevent the farmer in the irrigated areas from having to live on water. It will be an interesting comparison between the crops harvested on irrigated land and those harvested from dry farms.

S. A. WATSON RETURNS

It was with regret that the people of Bassano saw A. T. Cunliffe closing out his stock of jewelry, precious to him, and returning to the latter part of large amounts of wheat in districts where little or no artificial aid, scarcely a blade of grass would have grown this year.

However, the previous Owner, S. A. Watson, has decided to reopen the premises and to restore the stock to its former standard of excellence.

A. T. Watson, needs little introduction to the town or district for his record as a watchmaker and jeweler is well known.

We are pleased to be able to announce that the store will be reopened and the fact that Mr. Watson will be the preferred supplier for us a store and stock of which we may be justifiably proud.

Clever Scottish Comedian, Billy Oswald, Coming Here in
"You're Next."

Comedians are born, not made. The famous Scottish comedian, Billy Oswald, who is appearing here this week, on Tuesday June 26th in the big laugh-a-minute Farce "You're Next," was induced to come to Canada by his friends in Scotland by friends who recognized the young man's wonderful talent as a mimic and his everlasting laugh producing mimicry as practiced at all times, for a salary agreeing for the first year, he was a steady money maker and when F. Stuart-Wright, the English producer, planned a series of Extravaganzas brought O'walk over to Canada and starred him in "Florodora," and in "The Girl Friend." The Canadian Extravaganza Company then entered into a five year contract with him to appear in Montreal Farce.

"You're Next," Oswald's vehicle for the present season is an extremely comical farce in which there are many comic situations, gags and puns, and a few songs and dances. Some of the musical numbers, that will appeal especially to theatregoers are "An Old Fashioned Wife," "Bluebird," "Old Rajah" and "The English Girl." - "English Girl With Milks" and "The Social Life." In support of Mr. Oswald will be found Beatrice Caruso, Marie Thayer, Kathryn Sheldon, Robin Knight and others.

All Together**For Last Drive**

Canada is working to gather in available resources for the great drive that shall send the Red Cross racing to the conflict world four years ago. She proposes to lay the foundation for this ultimate effort by taking an inventory of all the available funds and resources available to her. This will be done on Saturday and Sunday, June 24th and 25th, as the day upon which all persons, male and female, of sixteen years and over, must register and make declaration to the useful kinds of contributions which will be most effective.

The information that registration will provide will constitute a solid basis upon which the Government can intelligently formulate and put into execution all its war policies. After registration has been completed, the public will understand the capabilities of the country for production; they will know how much of Canada's human energy is being uselessly expended. Knowing all these things they will be in position to take full advantage to best advantage in the disposal of which ever ounce of energy will count.

The registration of 5,000,000 men and women in one day is in itself an enormous task, but Canadians can be relied upon to meet it as they have met every major task imposed by the War.

THE TOWN OF BASSANO,
ALBERTA.

IN THE MATTER of the Town Act and the Tax Enforcement Return of the Town of Bassano for the year 1917.

TAKE NOTICE that the Tax Enforcement Return of the Town of Bassano for the year 1917 was confirmed in respects herein described lands at the Court of Confirmation held at the Town of Bassano on the Twenty-first day of July, A.D. 1917, and unless such lands are redeemed on or before the Twenty-first day of July, A.D. 1918, the same will be absolutely forfeited for non-payment of taxes.

DATED at Bassano, this 6th day of June, A.D. 1918.

GEO. B. R. BOND,
Secretary-Treasurer, Town of Bassano.

Of Belgium Is Being Gradually Decimated By the Brutal
Methods Employed By the Huns

It has emerged general notice that the existing death rate in Belgium is as high as at the time of the most terrible epidemics, and greater than any known in history. This is due to the extremities to which German occupation has reduced the country. The death rate of the Belgians is executed daily by the German authorities, according to a statement just issued by the Belgian government.

"Not taking into account the fatalities of the war, we know that the number of victims to be more than 5,000. For the following provinces we have approximate estimates: Namur, 1,800; Luxembourg, 1,200; Liege, more than 1,000; Brabant, 897; Hainaut, about 300."

"The Belgian government estimates the mortality resulting from privations, ill-treatment and underfeeding, exceeds 100,000. The number of deaths—some, too, have not died in the battlefield, where the Germans forced them to do auxiliary work.

"We are electrified with which numbers the Belgians numbers in their own country account for a great number of victims, especially among the poor to join the army or among couriers who try to smuggle news and supplies to the front. In July, 1917, 160 persons had been electrocuted, 100 of whom were women. The number of victims has increased, owing to the strengthening of the guards, to the increase of the war taxes."

"The death penalty pronounced by the German military courts for desertion, treason and cowardice hangs toll on the population. It is estimated that each day one Belgian at least dies."

"Through lack of physical strength many people become unable to resist slight illness, which, under German conditions of want, becomes fatal to the bad effect of unsanitary substances, it is difficult to reach the disease contracted by the soldiers through the use of raw rutabagas and the paroxysms of brain and body, the result of which is that the number of cases of scabies as a substitute for coffee is increasing."

The situation in 1918 can only grow worse, since it is undeniable that the German military power of destruction is lowering dangerously, and that the effects of the German occupation will make themselves felt for a long time after the war."

Europe's Hungry Millions

**Not Enough Food to Go Around
Even If Shipping Were**

A more detailed account of a recent speech under the title "Peace Without Plenty" by Sir William M. B. Wayup, director of the Canadian Bureau of food, has been received. Sir William pointed out that the deduction was made in those instances, including himself, who had access to all the necessary cereals, grain, flour, sugar, meat, bacon, eggs, butter, milk, and other supplies available, or likely to be available, to the allies. The German Empire, Austria-Hungary, Bulgaria, and Turkey, with a population of 130,000,000, are, he said, being starved to death. They are accustomed to rob life of comfort, and make continued existence of their civilization impossible. The centers of these central powers are another 45,000,000 Belgians, French, Spaniards, Portuguese, Greeks, Romanians, Twenty-five million people in Switzerland, Holland, Denmark, Norway, Sweden, and Ireland, very short of food. Russia, owing to internal disintegration, can no longer export food. Turkey, Germany, as a food exporting country, "Leaving Russia out of consideration, there are 100 million people in Europe who are getting even less food per day than they did before the war began under the existence of compulsory rationing."

Results of Organization
Great Britain last year increased its production of wheat 850,000 tons and potato production by 5,000,000 tons. The cultivated area was increased 1,000,000 acres. While 46,645 men were taken from industrial organizations and placed in the army, 100,000 more were added to them, and 80,000 women; increased production of aircraft 250 per cent, and ships 1,000 tons per day, and 10,000 tons of shipping. This is a striking proof of the results that can be secured by organization.

Explained It
"Misters—Did anyone call while I was out?" "Yes, it is possible," says the author, "that freedom from germs, low temperature, and the like, will be the result." "New Girl—Yes, mums; Mrs. Wayup called." "Did she seem disappointed when you told her she needn't come?" "Yes, she did look a little queer; but I told her she needn't come if she really thought it caused her ordinary equipment of every city."

"Yes, she did look a little queer; but I told her she needn't come if she really thought it caused her ordinary equipment of every city."

Grand Fleet Is Ready for Battle

The Germans Can Have A Battle Whenever They Want It

Achard Hurd, the naval expert, writing in the London Daily Telegraph with a new situation in the Zeppelin raid, and Ostend raids, the extension of British mining fields and the generalizing naval power now exercised by Germany, says:

"When the war is over the nation will be in a position to pay off the debt of the which we owe the American navy, for the maintenance of the coast defense system in connection with the convoy system but in fighting the submarine."

"I say with a clear conscience," he said, "that I have tested this intentions and have found them to be true."

"I have no peace, let them come forward with terms on the table. We have ours, he said."

The Workers

The Men Who Do Things, Who Hold on to Achieve

Here's the man who labors and does it with a song! He stimulates his neighbor and helps the world.

"The men who do things, who hold on to achieve,

"The men who do things, who hold on to achieve,

"The men who do things, who hold on to achieve,

"The men who do things, who hold on to achieve,

"The men who do things, who hold on to achieve,

"The men who do things, who hold on to achieve,

"The men who do things, who hold on to achieve,

"The men who do things, who hold on to achieve,

"The men who do things, who hold on to achieve,

"The men who do things, who hold on to achieve,

"The men who do things, who hold on to achieve,
